

Features and Applications

OptiReel™ cable box saves installers time

- Always know remaining cable length
- AT-A-GLANCE decreasing cable length markings
- Faster installation for multiple fiber optic cable drops
- Easy cable handling and storage, and excellent protection at job sites
- Available in popular fiber types and up to 12-fiber cables
- Can be stacked with other boxes containing data cables
- Contains optimum performance fiber optic cable

OptiReel™ is a self-contained payout box to facilitate storage, handling and pulling of the cables. The packaging greatly reduces set-up time for each pull. Therefore, the box is ideally suited for cable pulls through building duct systems, walls and ceilings where multiple cables may be pulled together and many relatively short runs need to be installed.

OptiReel™ cable boxes can be easily stacked and staged together with other types of data cables for faster installations. The compact boxes contain an internal reel so that cable stands do not have to be used. Cables in the boxes are marked with decreasing length markings, so that the installer always knows the length of the remaining cable in the box.

OptiReel™ cable packaging is available for Optical Cable Corporation's simplex and duplex AX-Series and DX-Series types of cables, either riser-rated or plenum-rated, with 62.5/125, 50/125, and single-mode fibers.

Contact your local Optical Cable Corporation representative or distributor to order your next shipment of fiber optic cable in the OptiReel™ cable box.

Specifications for OptiReel™

Cable Type	Cable Length (ft)	Total Weight (lbs)	Box Type
AX01	3,000	18	12" x12" x12"
AX02	1,500	19	12" x12" x12"
DX02	2,000	40	16" x16" x16"
DX04	1,500	40	16" x16" x16"
DX06	1,500	42	16" x16" x16"
DX08	1,000	35	16" x16" x16"
DX12	1,000	40	16" x16" x16"
